Forecast for Tuesday 23 Mar 2021

Weather: Mostly dull through the early hours and morning with low cloud, some patchy light drizzle in the south and west. Dry and brighter north of the Cairngorms. Some brighter spells around middle of the day for a few hours. Thickening cloud from late afternoon with rain spreading east from dusk. Clear skies developing after dark.

Chance of cloud free mountain/hill tops above 800m: 20% in the south, 60% in the north. 90% or more by late evening across all ranges.

Visibility: Good or very good outside of any low cloud, but generally poor in the south with fairly extensive cloud above 600-800m. Cloud more broken around 1000m to the north of the Cairngorm plateau. Cloud clearing late evening.

Met Office Aberdeen Meteorologist's View
Wind strength likely to be around 10 mph stronger than in the table across high summits and plateaus during the morning and early afternoon. Strongest winds around mid to late afternoon.

Forecast for Wednesday 24 Mar 2021
Weather: Clear spells and the odd snow shower through the early hours. Patchy cloud builds through the morning bringing scattered showers, falling as snow above 600m, most frequent across western ranges. Showers die out early evening with clear spells developing.

Maximum wind: Southwest 20-25 mph, gusting 35 mph

Chance of cloud free mountain/hill tops above 800m: 70% across eastern ranges, 40% across western ranges.

Visibility: Excellent air clarity outside of any low cloud. Often poor in the west with frequent extensive cloud above 700m. Temporary reductions to moderate or poor in the east with cloud bases occasionally lowering to around 1000m.

Temperature: **Glens:** Plus 1 Celsius rising to 7 Celsius.
At 800m: Minus 1 Celsius rising to plus 1 Celsius.
Freezing level: 500-600m, rising to 800m in the afternoon.
